

JULIA PÉ

Analog passion, dark emotion

FULL BIO

Based in Oviedo, Julia Pé is a DJ and vinyl selector whose sets move fluidly through the darker and more melodic edges of electronic music. Since her first encounter with turntables in 2006, she has remained a passionate advocate for the vinyl format, crafting timeless sets that connect techno, acid, electro and italo disco with instinctive precision.

Her trajectory includes long-standing collaborations with Intergalactic FM, where she performed at the Magic Wave Fest in The Hague, as well as appearances across Spain and Mexico with collectives such as Aztlán and Analogical Force Microm. She has played in renowned venues including Specka (Madrid), Lanna (Gijón) and Laut (Barcelona), and festivals like BAU.

Driven by emotion and intuition, Julia Pé continues to explore new layers of sound and connection, always guided by the same purpose: to make the crowd dance and feel.

SHORT BIO

DJ and vinyl purist Julia Pé has been shaping her sound since 2006, blending dark and melodic tones that flow between techno, acid, electro and italo disco. Known for her deep musical sensitivity and precise selection, she transforms each set into a hypnotic, emotional journey through analog textures.
