

MENDI

Hypnotic techno with emotional depth.

FULL BIO

Madrid-based DJ and selector Raquel Mendiguren, known as Mendi, has built a distinctive path within the techno scene through her intuitive and emotional approach to music. Her background in classical and world music gave her a broad sonic sensitivity that later evolved into her fascination for underground techno.

Her sets —deep, hypnotic and emotionally charged— reflect a constant search for connection: between sound and body, between rhythm and feeling. Known for her refined selection and emotional intelligence on the dancefloor, Mendi creates immersive journeys that invite collective introspection and release.

Over the years, she has performed in iconic venues such as Cassette, Stardust, Synth, Cabra Negra and Elecktra Club, and at festivals and clubs including Rebirth, Kommune, Entity, Lanna Club, LAUT, MadCool and Replay Sunset Parties.

In 2023, she debuted as a producer with “Sandstone” on 30D Records, featured in the V/A Eleventh Contact alongside Dasha Rush and Adriana Lopez —a milestone marking her evolution from selector to complete artist.

Outside the booth, Mendi cultivates a personal and spiritual growth practice that influences her musical expression. Her work as an emotional coach deepens her understanding of energy and human connection —elements that naturally flow into her sound and presence behind the decks.

SHORT BIO

Mendi's sound unfolds through dark, hypnotic and emotional techno, guided by a refined intuition and deep awareness of energy on the dancefloor. Her selection weaves tension and release with precision, creating sets that flow naturally between introspection and catharsis.

As a selector, Mendi approaches each performance as a process of connection — reading the atmosphere, sensing the crowd and translating emotion into rhythm. Her music resonates with authenticity, depth and purpose.
